**ANTONIO CANTERO FONDS
COMPLETE INVENTORY LIST**

This is a guide to one of the collections held by the [Osler Library of the History of Medicine](#), McGill University.

Visit the [Osler Library Archive Collections](#) homepage for more information

P104

Name: Antonio Cantero, 1902-1976

Antonio Cantero fonds.- 1920?-1976.- 270 cm of textual records and other records.

Biographical Sketch: Antonio Cantero graduated from McGill University in medicine in 1927. He was a cancer researcher and closely associated with the Montreal Cancer Institute and Hôpital Notre-Dame in Montreal.

Custodial History: Gift of Mrs. Antonio Cantero, 10 February 1976. Old accession number 598.

Scope and Content: Fonds documents Dr. Antonio Cantero's professional activities, especially his cancer research. The fonds contains correspondence, notes, reports, printed matter, slides, photographs and films.

Source of supplied title proper: Based on the documents in the fonds.

Language: The documents are in English and French.

Finding Aids: Inventory list available.

General Note: Conservation and description of the fonds to be done.

ANTONIO CANTERO PAPERS

The following is an index to a series of file tabs inscribed with letters of the alphabet found amongst the files of the Cantero collection, an indication that at one time the collection was arranged alphabetically by file subject. When the collection was deposited in the Osler Library in 1978, a superficial investigation of the files indicated this was only partially true and that in fact, the collection was rather disorganized. The list should therefore serve only as a very rough index to individual files. It should also be borne in mind that the letter of the alphabet on a particular tab may refer to files found before it as well as or instead of those found behind it.
